Dominican University

Keystone Experience

Administrative Assistant 2015 - 2019

Senior Elementary Directress 2019 - Present

When I was in the fifth grade, I did a report on Maria Montessori. I remember being completely fascinated by her! I knew then that I had found someone and something very special. Although life took me in a different direction, I always remembered that presentation as if I had just given it. Fast forward to a few years back, I was brought back into the Montessori world, and once again, I fell in love with it. I decided that I wanted to help bring Montessori to these amazing children and hopefully make a difference in their lives. So, I completed the Montessori training program and received my certification. As an Elementary Directress, I feel that this is where I should have been all along. These children are amazing and I am so lucky to be able to get a glimpse into their inspiring minds!
