I came to Keystone fresh out of grad school and Montessori training. At Keystone I was allowed the freedom to grow into an experienced teacher while holding true to my Montessori ideals. I quickly came to realize that Keystone is more than an amazing Montessori school - it is a family. I now have added two children of my own to our Keystone family and I delight in watching them grow within the Montessori method and this wonderful community. I enjoy reading, gardening, long walks and spending time with my 2 young children.
